Objective

To obtain a programmer analyst position with a focus of web design and development that will increase my technical skills, while enhancing the work environment in which I reside to its maximum potential.

Education

Bachelor of Science	Major: Computer Information Systems in Business
Castleton State College, Castleton, VT	Concentration: Business
Current GPA: 3.38	Graduation Date: May 9 th , 2015

Related Coursework

Web Design & Development	Systems Analysis & Design
JavaScript	Technical Project Management
Java Programming	Databases I & II
Technical & Professional Writing	Information Security Management

Experience

Programmer Analyst, Holstein Association USA, Inc., Brattleboro, VT, Summer 2015 – Present Day

- Worked on Java Web Applications while using Java, and Java Servlet Pages (JSP's) to create dynamic web pages that members would use to access the 20 million plus records of genomic data that the Association possesses. Generated reports from running queries against the Informix database, while creating solutions to generate and display said reports on the website.

Online Marketing Specialist, Skin and Tonic, Rutland, VT, Spring 2015

- Utilized WordPress as a Content Management System (CMS) to develop and launch an e-commerce website, while linking all pertinent social media to said website.

Website Administrator, Sigma Delta Chi (ΣΔΧ) Fraternity, Castleton, VT, 2014 – 15 Academic Years

- Made and created all website pages in HTML while utilizing JavaScript, and PHP, for more dynamic features. Continually updated and revised pages for content while performing maintenance.

Personal Qualities

Personal Skills: Proficient at researching, and editing. I am adept at working well with others or independently. Very prompt and can work against deadlines. Have a basic understanding of computer languages and their syntax, especially HTML. Have a solid foundation in understanding computer hardware as well.

Interests: Enjoy researching the latest electronics, running, swimming, paintball, skiing, coordinating social activities.
